

Interim Process to Determine Grid-Edge Status (Eversource Only)

2/7/22

1. Enter the site address in Eversource's **DG Hosting Capacity Map** ([link](#)).
Ex: 75 Charter Oak Ave., Hartford, CT 06106

2. Find the **Circuit Name** by clicking the closest colored line surrounding the address. The color of the line is not related to its Grid Edge status.

3. Find the site's ZIP Code and search for your site's **Circuit Name** on the **Grid Edge Map ZIP Code Table** (link) to determine if the circuit is on the Grid Edge.

Zip Code	Circuit
06106	307M1
06106	399B1
06106	399B2
06111	7L82
06114	335B1

For the address in this example (75 Charter Oak Ave., Hartford, CT 06106), the Circuit Name (147) is not listed. This site is not Grid-Edge.
