

Bidirectional EV Working Group- Meeting 1: Kickoff & Framing

Date: March 6, 2026] | Time: 9:00 AM ET | Platform: [Microsoft Teams](#)

NOTE – MEETING WILL BE RECORDED AND POSTED.

1 Objectives

- Align on the Working Group's purpose, scope, and constraints
- Establish common terminology and a shared understanding of the Connecticut program landscape
- Set expectations for participation and the process ahead

2 Agenda

2.1 Welcome & Overview (5 minutes)

- Welcome
- Overview of today's meeting objectives
- Meeting logistics

2.2 Authority Charge & Timeline (5 minutes)

Presenter: CES

- PURA's December 2025 Final Decision: key findings and directives
- Five required report elements
- Working Group schedule: major milestones and meeting cadence
- Deliverable deadlines: draft report (July 1) and final report (August 1)

2.3 Logistics, Charter & Participation (10 minutes)

Presenter: CES

- Charter overview: scope, ground rules, and out-of-scope items
- Member vs. distribution list distinction
- Meeting recordings, notes, and materials: available on Bidirectional EV Working Group page:
<https://energystoragect.com/bevwg/>

2.4 Overview of the ESS Program (15 minutes)

Presenter: Connecticut Green Bank (Sara Pyne)

- Residential and commercial program tracks
- Performance incentive framework
- Program partners, aggregators, and contractors
- Key program parameters relevant to potential bidirectional EV integration

2.5 Vehicle Grid Integration: Definitions & Framing (10 minutes)

Presenter: CES

- Bidirectional charging landscape: V2G, V2H, V2B, V2X — what do these terms mean?
- Export vs. non-export options
- Goal: establish common terminology the group will use going forward
- *Discussion: Are there terms or framings the group wants to flag or revisit?*

2.6 IES Pilots & Expected Learnings (15 minutes)

Presenter: CES (introduction by Sara Harari)

- Introduction and context: Sara Harari
- Overview of relevant Innovative Energy Solutions (IES) pilot participants
- Key findings available to date and anticipated learnings
- Relevance to Working Group deliberations
- *Discussion: What questions do participants have about the pilots?*

2.7 Working Group Scope vs. Interconnection Working Group Scope (10 minutes)

Presenter: CES

- What this Working Group will address (ESS program integration)
- What the Interconnection Working Group is addressing (interconnection process and standards and 25-08-05 Order 25, directing report to PURA on process for interconnecting bidirectional EVs)
- *Discussion: What key areas of overlap do participants envision between the two groups?*

2.8 Topics and Dates for Subsequent Meetings (15 minutes)

Presenter: CES

- Proposed meeting topics and sequencing
- *Discussion: are there topics missing, missequenced, or that should be prioritized?*
- *Discussion: potential topic areas for subgroups?*

2.9 Wrap-Up & Next Steps (5 minutes)

- Summary of key discussion points
- Action items and owners
